## INTRODUCTION

### STATISTICS PRESENTED IN THIS PUBLICATION

This publication presents a range of social and housing statistics produced from the 2001 Census of Population and Housing for Western Australia. For comparative purposes, it includes 1996 Census data based on 2001 Census geography.

The tables in this publication provide a selection of data for the population and their housing arrangements for Urban Centres/Localities (UC/L) and Sections of State (SOS). These geographic structures classify areas according to size of the population. Whilst the UC/L classification covers only part of each state and territory, the SOS classification covers each state and territory in its entirety. Refer to the Glossary for more information about the definitions of UC/L and SOS.

The data are presented on the basis of where people were counted on Census Night ('as enumerated'), and therefore data for each geographic area include visitors to that area, but exclude those people who were away on Census Night. All tables exclude overseas visitors unless otherwise stated.

Data released in *Selected Social and Housing Characteristics, Western Australia* (cat. no. 2015.5) provide various characteristics for Statistical Divisions (SDs), Statistical Subdivisions (SSDs) and Statistical Local Areas (SLAs). Refer to Appendix 2—Census Products and Services for more information.

### POPULATION MEASURES

Census counts should not be confused with the Australian Bureau of Statistics' (ABS) official population estimate, the Estimated Resident Population (ERP) which is used for electoral purposes and in assisting in the distribution of government funds to state and local governments. The ERP is the definitive population estimate and is derived from the census counts. For a fuller description of population measures and the derivation of ERP, please see paragraphs 6, 7 and 8 of the Explanatory Notes. Appendix 1—Estimated Resident Population includes a table showing census counts and ERP for each state and territory.

One of the important features of the Census is that it describes the characteristics of Australia's population and housing for small geographic areas and small population groups. While not available in this publication, data at the smallest geographic level (Collection District) are available in a range of census products. For more information on these products, please refer to Appendix 2—Census Products and Services. Concepts and definitions used in this publication are explained in the Glossary and more detailed information is available in the *2001 Census Dictionary* (cat. no. 2901.0). The Explanatory Notes in this publication provide a discussion of the scope and coverage of the Census, the different measures of population, and the limitations of census data.

This publication is one of a series of publications which provide data for both UC/L and SOS geographic areas for each state and territory (cat. nos 2016.1–7). A similar publication is also available, providing data for urban centres across the whole of Australia (cat. no. 2016.0). See Appendix 2—Census Products and Services for more information.

## SUMMARY OF FINDINGS

### PERSON

#### CHARACTERISTICS

##### *Population distribution*

The Census of Population and Housing conducted on 7 August 2001 counted 1,851,252 persons (including 19,244 overseas visitors) in Western Australia (WA), an increase of 7.3% or 125,157 persons since 1996 (1,726,095 persons).

There were 66 Urban Centres and 108 Localities in WA in 2001, with the highest population counts recorded in Perth (1,176,542), Rockingham (60,767), Mandurah (46,697) and Bunbury (45,299). These Urban Centres accounted for 71.8% of the population.

##### *Age*

In 2001, the median age was 34 years, compared with 33 years in 1996. The proportion of persons aged 0–14 years decreased from 22.4% in 1996 to 21.3% in 2001, while the proportion of persons aged 65 years and over increased from 10.5% to 11.1% during the same period.

The highest proportions of persons aged 0–14 years were recorded in the Localities of Yungngora (40.6%), Bayulu (40.4%), Jigalong (38.8%) and Yandeyarra (37.6%).

A high proportion of persons aged 65 years and over was recorded in the Urban Centres of Augusta (30.8%), Denham (26.7%) and Kalbarri (21.2%), and in the Localities of Monkey Mia (22.3%), Bouvard (21.7%) and Hopetoun (20.8%).

##### *Sex*

In 2001, there were more females (928,984) than males (922,268) with higher proportions of females recorded in the Major Urban area (51.1%). However, all other areas contained more males than females, with the Rural Balance (54.5% males) recording the highest proportion.

A higher proportion of females was recorded in the Urban Centres of Waroona (53.0%) and Mundaring (52.8%), and in the Localities of Looma (54.4%), Boyup Brook (54.0%), Childlow and Peppermint Grove (both 53.7%).

Males outnumbered females in 110 Urban Centres and Localities. A higher proportion of males was recorded in the Urban Centres of Leinster (70.4%) and Leonora (63.2%), and in the Localities of Marvel Loch (67.2%), Eneabba (66.5%) and Bremer Bay (63.1%).

##### *Median individual income*

The median weekly income grew from \$307 in 1996 to \$374 in 2001, an increase of 21.8%, with large increases recorded in the Major Urban (23.5%) and Rural Balance (15.4%) sections of the state.

The highest median incomes were recorded in the Urban Centres of Leinster (\$1,183), Paraburdoo (\$869) and Newman (\$761), and in the Localities of Marvel Loch (\$1048), Pannawonica (\$1,009) and Eneabba (\$795). The lowest median incomes were recorded in the Localities of Warburton (\$153), Balgo (\$170) and Looma (\$172).

##### *Indigenous status*

The number of persons who reported being of Indigenous origin increased by 15.2% to 58,496 in 2001, up from 50,793 in 1996, representing 3.2% of the total population (excluding overseas visitors).

## SUMMARY OF FINDINGS *continued*

<i>Indigenous status continued</i>	<p>Almost half (48.9%) of the Urban Centres and Localities reported proportions of Indigenous persons equivalent to, or less than, the average for WA (3.2%). The highest proportions were recorded in the Localities of Bayulu (98.4%), Looma (96.2%) and Bardi (One Arm Point) (95.2%), and in the Urban Centres of Halls Creek (62.6%) and Derby (40.5%).</p>
<i>Birthplace</i>	<p>The number of persons born in Australia increased by 5.4% to 1,241,786 in 2001, up from 1,178,341 in 1996, representing 67.8% of the population of WA (excluding overseas visitors).</p> <p>In 15 of the Urban Centres and Localities, 90.0% or more of the population were born in Australia. The highest proportions were recorded in the Localities of Bayulu, Looma, Yungngora and Bardi (One Arm Point), all 100.0%.</p> <p>Of the population counted (excluding overseas visitors), 27.0% (495,240 persons) stated that they had been born overseas, with the highest proportions recorded in The Vines (41.4%), Baldivis (L) (32.8%) and Two Rocks (L) (32.3%).</p>
<i>Internet and Personal computer use</i>	<p>Of the population counted (excluding overseas visitors), 43.4% (794,456 persons) used a personal computer at home in the week prior to Census Night. Of the same population, 38.5% (704,428 persons) used the Internet in the week prior to Census Night.</p> <p>The highest proportions of persons who used a personal computer at home were recorded in Stoneville (55.7%), Baldivis (L) and The Vines (both 54.6%), while low proportions were recorded in Bardi (One Arm Point), Looma (L) and Bayulu (L) (all below 1.5%).</p>
LABOUR FORCE CHARACTERISTICS	<p>In 2001, there were 828,781 employed persons (92.5% of the labour force), an increase of 8.6% or 65,574 persons since 1996 (763,207 persons).</p>
<i>Employed persons</i>	<p>Urban Centres with the largest numbers of employed persons were Perth (538,751 or 92.5% of the labour force), Rockingham (22,691 or 89.2%), Bunbury (20,416 or 91.6%) and Mandurah (15,964 or 87.4%). This pattern is similar to the population distribution.</p>
<i>Full-time employment</i>	<p>The number of full-time workers increased from 508,309 persons in 1996 to 520,491 in 2001. This represents 62.8% of the employed population in WA. As a proportion of persons in the labour force, the highest proportions of full-time workers were recorded in the Localities of Eneabba (83.2%) and Marvel Loch (82.1%). Urban Centres with the highest proportions of full-time workers were Leinster (85.6%) and Paraburdoo (74.2%).</p>
<i>Part-time employment</i>	<p>In 2001, 285,302 workers (34.4% of employed persons) were employed part-time, an increase of 47,118 persons since 1996. The highest proportions of part-time workers, as a proportion of persons in the labour force, were recorded in the Localities of Mindibungu (80.0%) and Balgo (72.3%). The Locality with the lowest proportion of part-time workers was Eneabba (11.2%).</p>
<i>Unemployed persons</i>	<p>In 2001, there were 67,485 unemployed persons (7.5% of persons in the labour force) in WA, compared with 66,830 persons (8.1%) in 1996. High unemployment rates were recorded in the Localities of Roebourne (18.4%), Green Head (17.9%) and Cue (17.0%).</p>

## SUMMARY OF FINDINGS *continued*

### *Unemployed persons continued*

For those aged 15–24 years, the unemployment rate fell to 14.1% from 13.7% in 1996. High youth unemployment rates were recorded in the Localities of Monkey Mia (57.1%), Peppermint Grove (41.2%) and Bouvard (40.0%).

The number of unemployed persons looking for full-time work decreased by 7.7% down from 52,887 persons in 1996 to 48,790 in 2001. Those looking for part-time work increased by 34.1% from 13,943 persons in 1996 up to 18,695 in 2001.

### *Occupation*

In 2001, the largest occupation groups were Professionals and Associate Professionals (29.4% of employed persons), Intermediate Clerical, Sales and Service Workers (16.1%) and Tradespersons and Related Workers (13.3%). These proportions are similar to those in 1996.

The highest proportions of Professionals and Associate Professionals were recorded in the Localities of Frenchman Bay (48.1%), Wiluna (43.6%) and Parkerville (38.1%).

The highest proportions of Intermediate Clerical, Sales and Service Workers were recorded in the Localities of Monkey Mia (23.2%), Ellenbrook (22.6%) and Balgo (21.8%).

The highest proportions of Tradespersons and Related Workers were recorded in the Localities of Paraburdoo (28.8%), Marvel Loch (27.0%) and Allanson (25.3%).

### *Industry*

In 2001, the three largest industries of employment in WA were Retail Trade (14.8%), Property and Business Services (10.9%) and Manufacturing (10.2%). These industries were also the top three in 1996 (Retail Trade (13.5%), Manufacturing (10.1%) and Property and Business Services (9.9%)).

The highest proportions of persons employed in Retail Trade were recorded in Sawyers Valley (L) (20.5%), Mandurah (19.8%) and Busselton (19.6%).

The highest proportions of persons employed in Property and Business Services were recorded in The Vines (13.4%), Perth (12.9%) and Dunsborough (12.7%).

The highest proportions of persons employed in Manufacturing were recorded in the Localities of Yarloop (37.0%), North Pinjarra (27.3%) and Cookernup (24.2%).

### DWELLING CHARACTERISTICS

#### *Total number of dwellings*

The number of dwellings increased by 10.6% from 700,382 in 1996 to 774,926 in 2001. Of these dwellings, 89.8% (695,649) were occupied private dwellings, 10.0% were unoccupied private dwellings and 0.2% were non-private dwellings.

#### *Total number of persons*

The number of persons in occupied private dwellings increased by 7.7% from 1,659,055 in 1996 to 1,786,222 in 2001. Of these, 64.2% (1,146,909 persons) were counted in the Major Urban area.

#### *Fully owned*

Of the 695,649 occupied private dwellings in WA, 35.9% were fully owned, compared with 37.0% in 1996. The Rural Balance area recorded the highest proportion of fully owned dwellings in both 2001 (47.6%) and 1996 (47.7%).

Home ownership proportions were highest in the Localities of Frenchman Bay (57.3%), Green Head (56.7%) and Wickepin (55.2%).

## SUMMARY OF FINDINGS *continued*

### *Being purchased*

In WA, 31.7% of private dwellings were being purchased, similar to 29.8% in 1996. The Major Urban area recorded the highest proportions in both 2001 (33.2%) and 1996 (31.2%).

High proportions of homes being purchased were recorded in Baldivis (L) (73.5%), Ellenbrook (66.4%) and Paraburdoo (64.2%).

### *Housing loan repayments*

The median monthly loan repayment increased by 13.0%, up from \$745 in 1996 to \$842 in 2001. High median loan repayments were recorded in Frenchman Bay (L) (\$1,666), Broome (\$1,216) and The Vines (\$1,162).

### *Rented dwellings*

In 2001, 24.9% (172,888) of occupied private dwellings were being rented, similar to 26.8% in 1996. The Bounded Locality area recorded the highest proportions in both 2001 (31.3%) and 1996 (32.1%).

The Localities with the highest proportions of rented dwellings were Looma and Bayulu (both 100.0%), and Yungngora (91.9%).

### *Rent*

The median weekly rent increased by 18.2% from \$110 in 1996 to \$130 in 2001. The Major Urban area recorded the highest median rent (\$141), compared with the Rural Balance (\$67) and Bounded Locality (\$77) sections of state.

A high median rent was recorded in the Urban Centres of Coral Bay (\$266), The Vines (\$203) and Dunsborough (\$166), and in the Localities of Gnarabup (\$211), Point Samson (\$195) and Baldivis (\$192).

## FAMILY CHARACTERISTICS

The number of families grew from 445,543 in 1996 to 479,892 in 2001, an increase of 7.7%. Of these families, 46.9% were couples with dependent and non-dependent children, 36.1% were couples without children, 15.2% were one parent families and 1.8% were of other family type. In the Rural Balance area, 46.4% of couple families had dependent children, compared with 51.0% in 1996.

The highest proportions of couple families with dependent children were recorded in Rottnest Island (L) (66.7%), Leinster (62.6%) and Baldivis (L) (62.3%).

High proportions of couple families without children were recorded in Augusta (64.6%) and Frenchman Bay (L) (63.0%).

The highest proportions of one parent families were recorded in the Localities of Kalumburu (50.8%), Warmun (42.1%) and Bardi (One Arm Point) (37.9%).

## HOUSEHOLD CHARACTERISTICS

The number of households grew from 604,067 in 1996 to 659,664 in 2001, an increase of 9.2%. Of these households, 71.9% were family households, 24.3% were lone person households and 3.7% were group households. These proportions are similar to those in 1996.

The highest proportions of lone person households were recorded in the Localities of Wiluna (67.0%), Rottnest Island (50.0%) and Bremer Bay (42.3%).

The proportions of group households in WA were relatively low with the highest recorded in the Localities of Gnarabup (10.6%) and Yandeyarra (9.1%).

## EXPLANATORY NOTES

### SCOPE AND COVERAGE

**1** The 2001 Census of Population and Housing was held on 7 August 2001. Australia's first national Census was held in 1911 and since 1961 a census has been taken every five years, a frequency which is specified in the *Census and Statistics Act 1905*. The objective of the Census is to count the number of people in Australia on Census Night, identifying their key characteristics and those of the dwellings in which they live.

**2** The Census aims to count every person who spent Census Night in Australia. This includes Australian residents in Antarctica and people in the territories of Jervis Bay, Cocos (Keeling) Islands and Christmas Island. The other Australian External Territories, Norfolk Island and minor islands such as Heard and McDonald Islands, are outside the scope of the Australian Census. The only people in Australia on Census Night who are excluded from the Census are foreign diplomats and their families.

**3** The Census includes people on vessels in or between Australian ports, on board long distance trains, buses or aircraft and on oil or gas rigs off the Australian coast. People entering Australia before midnight on Census Night are counted while people leaving an Australian port for an overseas destination before midnight on Census Night are not. Visitors to Australia are included regardless of how long they have been in the country or how long they plan to stay. However, for people who intend to be in Australia less than one year, only basic demographic data are available. The Census includes homeless people and people camping out.

**4** All occupied dwellings are counted in the Census with the exception of diplomatic dwellings. Unoccupied private dwellings are also counted with the exception of unoccupied dwellings in caravan parks, marinas and manufactured home estates, and units in accommodation for the retired or aged (self-care). Unoccupied residences of owners, managers or caretakers of such establishments are counted.

**5** Details about the 2001 Census content, collection operations, confidentiality and privacy protection, processing and evaluation activities are contained in *2001 Census of Population and Housing: Nature and Content* (cat. no. 2008.0).

### ABS POPULATION ESTIMATES

**6** All counts in this publication are on a 'place of enumeration' basis. 'Place of enumeration' means where the person was counted on Census Night. The Census can provide person counts based on 'place of usual residence' for Collection Districts (CDs) and aggregations of CDs. Appendix 1—Estimated Resident Population highlights the difference between these two measures.

**7** The Estimated Resident Population (ERP) is the official Australian Bureau of Statistics (ABS) estimate of the Australian population. The ERP is based on results of the Census of Population and Housing. It is compiled as at 30 June of each census year and updated quarterly between censuses. The intercensal estimates of the resident population are revised following the next census.

**8** The ERP is derived from census usual residence counts, by making the following three important adjustments:

- An adjustment for census net underenumeration (or undercount). The level of underenumeration is derived from the Post Enumeration Survey which is conducted soon after the Census, and from estimates based on demographic analysis.

## EXPLANATORY NOTES *continued*

### ABS POPULATION ESTIMATES

*continued*

- The inclusion of an estimated number of Australian residents who are temporarily overseas on Census Night and are therefore not covered by the Australian Census. The number of such people is estimated from statistics on overseas arrivals and departures.
- The third adjustment occurs because the Census does not fall on 30 June. For example, the 2001 Census was held on 7 August. Back dating of population estimates from 7 August to 30 June is accomplished using data from birth and death registrations, overseas arrivals and departures, and estimates of interstate migration, for the period 1 July to 7 August.

**9** ABS population estimates are published in *Australian Demographic Statistics* (cat. no. 3101.0), produced quarterly, and in *Population by Age and Sex, Australian States and Territories* (cat. no. 3201.0) produced annually. ERPs for Statistical Local Areas (SLAs) are published in *Regional Population Growth, Australia and New Zealand* (cat. no. 3218.0).

**10** The ABS also provides projections (based on different assumptions as to future fertility, mortality and migration) of the resident population of Australia, states and territories. These projections are published every two years in *Population Projections, Australia* (cat. no. 3222.0).

### DATA LIMITATIONS

**11** Census data are subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing. Whilst many of these are corrected by careful processing procedures, some still remain. The effect of the remaining errors is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:

- *Partial non-response*: In some cases where an answer is not provided to a question, an answer is imputed (often from other information on the form). In other cases a 'Not stated' code is allocated.
- *Processing error*: While such errors can occur in any processing system, quality management is used continuously to improve the quality of processed data, and to identify and correct data of unacceptable quality.
- *Random adjustment*: Table cells containing small values are randomly adjusted or suppressed to avoid releasing information about particular individuals, families, or households. The effects of these adjustments are statistically insignificant.
- *Respondent error*: Because processing procedures cannot detect or repair all errors made by people in completing the forms, some remain in final data.
- *Undercount*: Although the Census aims to count each person, there are some people who are missed and others who are counted more than once. The data in this publication are not adjusted for the net undercount.

**12** Further information on data quality is provided progressively in *Census Update* and in *2001 Census Papers*.

### QUALITY OF INDIGENOUS STATISTICS

**13** For further information on the quality of Indigenous statistics, see *Population Distribution, Aboriginal and Torres Strait Islander Australians* (cat. no. 4705.0). This publication presents counts for Aboriginal and Torres Strait Islander Australians from the 2001 Census for Indigenous geographic areas, accompanied by information on data quality to help interpret the data. Estimates of the Indigenous population, based on the 2001 Census, are also included. For comprehensive information on the quality of Indigenous census data, see *Population Issues, Aboriginal and Torres Strait Islander Australians* (cat. no. 4708.0).

## EXPLANATORY NOTES *continued*

### OVERSEAS VISITORS

**14** Overseas visitors are defined differently for the 2001 Census. For the 1996 Census overseas visitors were defined as any person who stated they would be in Australia for less than 6 months. For the 2001 Census they are defined as any person who stated they would be in Australia for less than 12 months. Data for overseas visitors are restricted to age, sex and marital status.

### CALCULATION OF PROPORTIONS

**15** When calculating the proportion of the population with a particular characteristic, 'Not stated' responses are included in the denominator. For example, in the Summary of findings, the proportion of people who are of Indigenous origin is calculated by dividing the number of persons who stated that they were of Indigenous origin by the total population and expressing the result as a percentage. The total population includes the category 'Not stated'.

**16** For census variables which include data for overseas visitors i.e. age, sex and marital status, the category 'Overseas visitor' is also included in the denominator.

### CALCULATION OF MEDIAN

**17** A median is a measure of central tendency. It is a mid value which divides a population distribution into two, with half the observations falling below it and half above it. Unlike averages (means) medians are not usually skewed by extreme observations.

**18** There are a number of issues to be aware of:

- The categories 'Not stated' and 'Not applicable' are not included in the calculation of medians.
- The category 'Overseas visitor', is only included in the calculation of the median when data for overseas visitors is collected for the variable (see paragraph 14). For example, 'Median age' (table 1) includes overseas visitors whereas 'Median weekly individual income' (also in table 1) does not.
- If a median falls into a category that has a text-only label, then a value of '0' is used for that category. For this publication this is only relevant to the calculation of 'Median weekly individual income' (table 1), as the income classification (mnemonic INCP) includes categories 'Nil income' and 'Negative income'.
- When calculating a median on a classification containing ranges, the median may fall into a range which is open-ended. In this case, the median would be set to the number in the range's label. For example, in the calculation of 'Median weekly individual income', if the median was to fall in the last range *\$1,500 or more*, then \$1,500 would be allocated as the median.
- 'Median monthly loan repayment' and 'Median weekly rent' (both in table 6) are based on the ranged variables HLRD01 and RNTD01 respectively (see Glossary). This is due to difficulties associated with the large number of small cells when using individual dollar values to perform these calculations. An adjustment has been made to HLRD01, with the range *\$1,500 and over* changed to *\$1,500–\$1,999* and an additional range *\$2,000 and over* added.

### UNADJUSTED DOLLARS

**19** The 1996 Census dollar values for 'Median weekly individual income' (table 1), 'Median monthly loan repayment' (table 6) and 'Median weekly rent' (table 6) have not been adjusted into 2001 dollars.

UC/L	Urban Centre/Locality
WA	Western Australia

## APPENDIX 1 ESTIMATED RESIDENT POPULATION

### POPULATION MEASURES

This table is provided to highlight the difference between the Census 'as enumerated' and 'usual residence' counts and the Estimated Resident Population (ERP). The ERP is the official Australian Bureau of Statistics (ABS) estimate of the Australian population. It is based on the Census of Population and Housing usual residence counts and is updated quarterly using births, deaths and migration data.

### POPULATION MEASURES—30 JUNE AND 7 AUGUST 2001

	<i>Census as Enumerated(a)</i>	<i>Census Usual Residence(b)</i>	<i>Estimated Resident Population(c)</i>
New South Wales	6 371 745	6 326 579	6 609 304
Victoria	4 644 950	4 660 991	4 822 663
Queensland	3 655 139	3 522 044	3 635 121
South Australia	1 467 261	1 470 057	1 514 854
Western Australia	1 851 252	1 828 294	1 906 114
Tasmania	456 652	460 672	472 931
Northern Territory	210 664	188 075	200 019
Australian Capital Territory	311 947	309 998	321 680
<b>Australia(d)</b>	<b>18 972 350</b>	<b>18 769 249</b>	<b>19 485 278</b>

- (a) Number of persons counted in each state/territory on Census Night, 7 August 2001.
- (b) Number of persons usually resident in each state/territory on Census Night on 7 August 2001 regardless of where they were counted on Census Night.
- (c) These are census usual resident counts, plus Australian residents temporarily overseas on Census Night, plus the estimated census underenumeration, plus deaths and less births, net overseas migration and net interstate migration occurring between 30 June and 7 August 2001, giving estimated resident population at 30 June 2001.
- (d) Includes Other Territories.

## APPENDIX 2 CENSUS PRODUCTS AND SERVICES

### 2001 PRODUCTS AND SERVICES

A wide range of products and services are available from the 2001 Census of Population and Housing. Brief descriptions of these are included below. For more detailed information on the 2001 Census range of products and services, please refer to the *2001 Directory of Census Statistics* (cat. no. 2910.0).

Census products fall into two broad types: reference products and data products. Most of the reference products from the 2001 Census are available free of charge from the Australian Bureau of Statistics (ABS) web site.

### CENSUS REFERENCE PRODUCTS

#### *2001 Census Dictionary*

The *2001 Census Dictionary* (cat. no. 2901.0) is a comprehensive reference guide to the 2001 Census of Population and Housing. The Dictionary includes a complete listing of 2001 Census classifications. It describes new topics introduced for 2001 and highlights classification changes that have occurred since the 1996 Census. The Dictionary also explains the concepts relevant to census collection, processing and output of data.

#### *How Australia Takes a Census*

*How Australia Takes a Census* (cat. no. 2903.0) provides information about the history of the census, the planning process and the way in which the census is conducted.

#### *Geographic Classifications and Codes*

*Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001 Census Edition* (cat. no. 1216.0) provides information about the names and codes of the standard geographic areas used in the 2001 Census. *Statistical Geography: Volume 2—Census Geographic Areas, Australia 2001 Census Edition* (cat. no. 2905.0) and *Statistical Geography: Volume 3—Australian Standard Geographical Classification (ASGC) Urban Centres/Localities: 2001 Census Edition* (cat. no. 2909.0) provide information on additional geographic areas.

#### *2001 Census Statistical Local Area Maps*

These reference maps show the Statistical Local Areas (SLAs) from the 2001 Census. Each map shows the boundary of an SLA and the Collection District boundaries contained within.

#### *Digital Boundaries*

Census boundaries are made available electronically as *Digital Boundaries*. They include all of the Australian Standard Geographical Classification (ASGC), Urban Centres and Localities, and Census-specific areas.

### CENSUS DATA PRODUCTS

#### *Census Snapshots*

*Census Snapshots* are a new product designed to provide a summary overview for selected geographic areas and are available from the ABS web site, free of charge. *Census Snapshots* contain subsets of Community Profile data, including person counts, age and birthplace, presented in a narrative form for easy access by a wide audience. A 1901 *Census Snapshot* for Australia is also available to celebrate the Centenary of Federation.

#### *Estimated Resident Population*

The Estimated Resident Population (ERP) is the official ABS population estimate. It is based on census usual residence counts, and is updated quarterly using births, deaths and migration data.

Two publications containing ERP data, based on 2001 Census figures are:

- *Australian Demographic Statistics—2001 Census Edition*, cat. no. 3101.0
- *Regional Population Growth, Australia—2001 Census Edition*, cat. no. 3218.0.

#### *Selected Characteristics*

The *Census of Population and Housing* suite of publications contains data and commentary on various person and dwelling characteristics from the 2001 Census at selected geographic levels. There are three series of publications in the suite with the following subtitles:

## APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

### *Selected Characteristics continued*

- *Selected Social and Housing Characteristics, Australia 2001*, cat. no. 2015.0
- *Selected Social and Housing Characteristics for Statistical Local Areas 2001*, cat. nos 2015.1–8
- *Selected Characteristics for Urban Centres and Localities, Australia 2001*, cat. no. 2016.0
- *Selected Characteristics for Urban Centres and Localities 2001*, cat. nos 2016.1–7
- *Selected Education and Labour Force Characteristics, Australia 2001*, cat. no. 2017.0
- *Selected Education and Labour Force Characteristics for Statistical Local Areas 2001*, cat. nos 2017.1–8.

### *Community Profile Series*

The Community Profile Series provides detailed and comprehensive census characteristics of people, families and dwellings for small areas. This series is available for all standard census geographic areas, and is available in hardcopy and electronic formats.

The series comprises six Community Profiles:

- *Basic Community Profile* (cat. no. 2001.0) contains 33 tables of detailed data covering dwelling, household and family topics. This profile is available for all standard census geographic areas, Commonwealth and State Electoral Divisions, Postal Areas, and Suburbs, for the states/territories and Australia.
- *Indigenous Profile* (cat. no. 2002.0) contains 29 tables of key Census characteristics for Aboriginal and Torres Strait Islander people, for all ASGC areas from Statistical Local Area (SLA) level to whole of Australia, as well as Indigenous Areas and Aboriginal and Torres Strait Islander Commission (ATSIC) regions.
- *Time Series Community Profile* (cat. no. 2003.0) contains 22 tables comparing data from the 1991, 1996 and 2001 Censuses where the classifications are comparable. Data are presented on 2001 geographic boundaries.
- *Usual Residents Profile* (cat. no. 2004.0) contains 28 tables of data for persons usually resident in the selected area. This is the only community profile based on place of usual residence.
- *Expanded Community Profile* (cat. no. 2005.0) contains 49 tables available for SLAs and larger areas, comprising more detailed versions of some of the Basic Community Profile tables, plus additional tables.
- *Working Population Profile* (cat. no. 2006.0) contains 19 tables of labour force and related data on the characteristics of employed people.

### *Classification Counts*

*Classification Counts* (cat. nos 2022.0–8) provide frequency counts for 2001 Census variables in complete classificatory detail, for every state/territory and Capital City Statistical Division, cross-classified by sex where applicable.

### *CLIB2001*

*CLIB2001* is an electronic product provided free of charge to public libraries through the ABS Library Extension Program. The product contains a large volume of tabulated data and software that allows access, display and printing of the data. For 2001 this product will be available as both a CD-ROM and (limited access) Internet-based product. *CLIB2001* comprises the complete 2001 Census Community Profile Series and Classification Counts.

### *CDATA 2001*

*CDATA 2001* is a CD-ROM product which contains a large volume of tabulated census data, digital boundaries and base map data, with software to produce tables, maps and graphs of the data. The product is available at the Australia and state/territory levels.

## APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

### *CDATA 2001 continued*

There are two *CDATA 2001* products available, offering different levels of functionality:

*CDATA 2001—Full Geographical Information System (GIS)*: This version is aimed at the expert GIS user who requires detailed spatial data analysis using Structured Query Language, geocoding and importation of 'client own' data.

*CDATA 2001—Quickbuild*: This version has been designed for GIS users with more basic spatial analysis requirements. It allows users to produce data reports, graphs and/or maps. The product is aimed at inexperienced or intermediate GIS users. *CDATA 2001—Quickbuild* users will also have the option to upgrade to *CDATA 2001—Full GIS* if so desired.

### *Social Atlas Series*

The *Social Atlas* (cat. nos 2840.1–8) publications feature colour maps of the key social, demographic and economic characteristics of each capital city. These will be released from November 2002.

### *Australia in Profile—A Regional Analysis*

*Australia in Profile—A Regional Analysis* (cat. no. 2032.0) provides commentary and data on a number of key social indicators from the 2001 Census, with the focus on regional distributions and comparisons.

### CONSULTANCY SERVICES

The following census specific services are available:

- *Customised Profiles Service* provides community profile data tailored to your needs, on a variety of media.
- *Customised Table Service* provides detailed cross-classified tables tailored to your needs on a variety of media.
- *Customised Geographic Data Reports Service* provides tabular geographic data which relate specifically to the census Geographic Areas and their characteristics (e.g. area).
- *Customised Mapping Service* provides both Customised Thematic Maps and Customised Reference Maps on request.

## GLOSSARY

General descriptions of terms and concepts used in this publication are provided below. Tables are also footnoted where applicable for additional clarity. Detailed definitions of classifications and concepts are available in the *2001 Census Dictionary* (cat. no. 2901.0).

<b>Dependent child</b>	A dependent child is a person who is either a child under 15 years of age or a dependent student. A dependent student is any child in a family under 15 years of age, or who is aged 15–24 years and is a full-time student. To be regarded as a child the individual can have no partner or child of his/her own usually resident in the same household.
<b>Dwelling</b>	<p>A dwelling is a structure which is intended to have people live in it, and which is habitable on Census Night.</p> <p>There are private and non-private dwellings:</p> <ul style="list-style-type: none"> <li>■ A private dwelling is normally a house, flat, part of a house, or even a room; but can also be a house attached to, or rooms above, shops or offices; an occupied caravan or unit in a caravan park or craft in a marina; occupied dwelling in a Manufactured Home Estate; occupied self-care unit in Accommodation for the Retired or Aged; a houseboat; or tent if it is standing on its own block of land. An occupied caravan situated on a residential allotment is also classed as a private dwelling. Private dwellings can be either occupied or unoccupied.</li> <li>■ Non-private dwellings are those dwellings not included above, which provide a communal or transitory type of accommodation. They are classified according to their function. These dwellings include hotels, motels, guest houses, prisons, religious and charitable institutions, defence establishments, hospitals and other communal dwellings. Only occupied non-private dwellings are included in the Census.</li> </ul>
<b>Employed</b>	Employed people are those aged 15 years or more who, during the week prior to Census Night, worked for payment or profit; who had a job from which they were on leave or otherwise temporarily absent; were on strike or stood down temporarily; or worked as unpaid helpers in a family business.
<b>Family</b>	A family is defined by the ABS as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. The basis of a family is formed by identifying either a couple, parent-child or other blood relationship. Information on persons temporarily absent on Census Night is considered in family coding.
<b>Full-time/Part-time employment</b>	<p>This variable is based on the number of hours worked in all jobs held by employed people during the week before Census Night. It excludes any time off but includes any overtime or extra time worked:</p> <ul style="list-style-type: none"> <li>■ Part-time workers: employed people who worked up to 34 hours</li> <li>■ Full-time workers: employed people who worked 35 hours or more.</li> </ul>
<b>Geographic areas</b>	<p>The tables in this publication use both the Section of State and Urban Centre/Locality classification structures as defined by the 2001 Census edition of the Australian Standard Geographical Classification (ASGC).</p> <p><i>Section of State (SOS):</i> The SOS Structure uses population counts from the latest Census of Population and Housing to class CDs as either urban or rural. Unlike the UC/L Structure, the SOS Structure includes all CDs and therefore, in aggregate, the SOS Structure covers all of Australia. For the 2001 edition, three of the five different SOS have been divided into sub categories based on population size. Data for these sub categories are available through the Consultancy Services listed in <i>Appendix 2—Census Products and Services</i>.</p>

## GLOSSARY *continued*

### Geographic areas *continued*

Within a state/territory (S/T), each SOS represents an aggregation of non-contiguous geographical areas of a particular urban/rural type. These are based upon the UC/Ls current for the census year 2001. Not all SOS are represented in each S/T. The categories are:

- Major Urban: this category provides for a further three categories of urban areas (Urban Centres from the UC/L Structure) based upon population ranges of 1,000,000 or more, 250,000 to 999,999, and 100,000 to 249,999.
- Other Urban: this category provides for a further five categories of urban areas (Urban Centres from the UC/L Structure) based upon population ranges of 50,000 to 99,999, 20,000 to 49,999, 10,000 to 19,999, 5,000 to 9,999, and 1,000 to 4,999.
- Bounded Locality: this category provides for a further two categories of rural areas (Localities in the UC/L Structure) with a population of 500 to 999 and 200 to 499.
- Rural Balance: the remainder of the S/T.
- Migratory: areas composed of off-shore, shipping and migratory CDs.

Listings of component CDs of SOS, for census year 2001, are available from the ABS as a Customised Geographic Data Report.

*Urban Centre/Locality (UC/L):* The UC/L structure is defined using the population counts (place of enumeration) from the 2001 Census of Population and Housing. The structure is only current at the time of the Census.

The UC/L structure groups Census Collection Districts (CDs) together to form defined areas according to population size criteria. (The delimitation criteria for UC/Ls are based on those developed in 1965 by Dr G. J. R. Linge.) In broad terms an urban centre is a population cluster of 1,000 or more people, while a locality is a population cluster of between 200 and 999 people. For statistical purposes, people living in urban centres are classified as urban, while those in localities are classified as rural.

The UC/L Structure relates to CDs within defined areas only and thus in aggregate does not cover the whole of Australia. Urban centres may cross state or territory boundaries and in those instances, the separate portions are uniquely identified and reported in their relevant state or territory.

A full description of the definitions and delimitation criteria used for the UC/Ls may be found in the publication *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001* (cat. no. 1216.0), Chapter 6.

The UC/Ls determined following the 2001 Census are listed in the publication *Statistical Geography: Volume 3—Australian Standard Geographical Classification (ASGC) Urban Centres/Localities, 2001* (cat. no. 2909.0).

*More information:* Definitions, maps and lists of codes and names of the geographic areas are available in *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001* (cat. no. 1216.0) effective date 1 July 2001.

#### HLRD01

This is a derived variable which contains the amount of money spent on housing loan repayments in ranges. In standard census products, ranges are used rather than individual dollar amounts. Individual dollar amounts are available. More detail about this variable is available in the *2001 Census Dictionary* (cat. no. 2901.0).

#### Household

A household is defined as a group of two or more related or unrelated people who usually reside in the same dwelling, who regard themselves as a household, and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, without combining with any other person.

## GLOSSARY *continued*

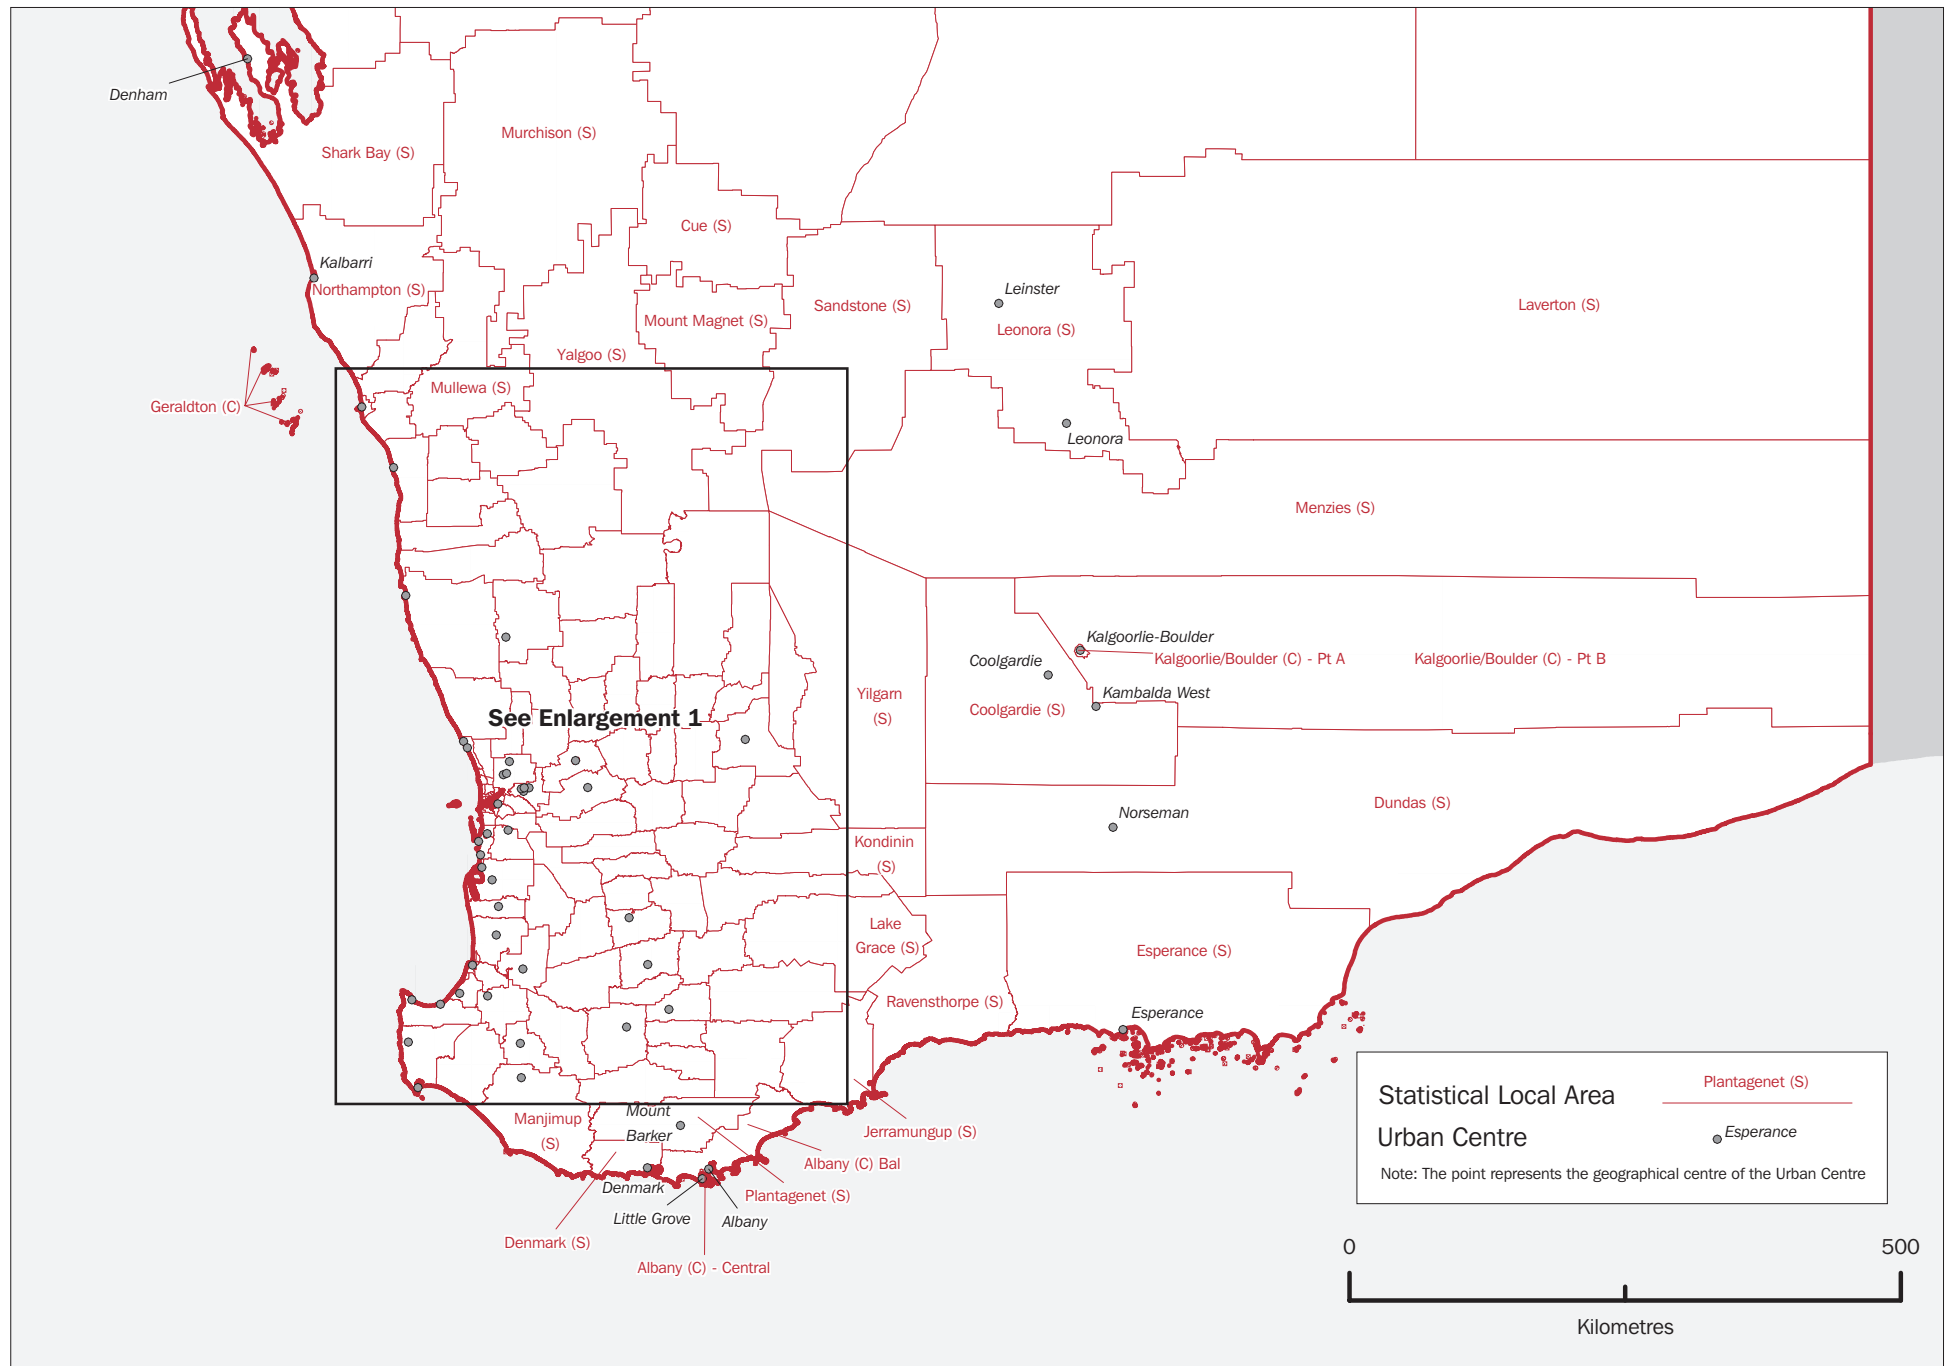

<b>Household</b> <i>continued</i>	Under this definition, in a group house where occupants share the dwelling, each occupant who usually supplies his/her own food should be counted as a separate household and issued with a separate Household Form. In practice, however, most such households usually only complete one form.
<b>Income</b>	<p>People aged 15 years and over are asked to indicate their usual gross weekly income by selecting an income range on the census form. There are 16 options ranging from 'Negative income', 'Nil income' through to '\$1,500 or more'. For example, a person with a gross weekly income of \$650 per week would tick the range '\$600–\$699'. Gross weekly income is the income before tax, superannuation, health insurance, or other deductions are made. Gross income includes: family allowance, parenting payment, pensions, unemployment benefits, student allowances, maintenance (child support), superannuation, wages, salary, overtime, dividends, rents received, interest received, business or farm income (less operation expenses) and worker's compensation received.</p> <p>Household income is the sum of the personal incomes of each resident present in the dwelling.</p>
<b>Indigenous</b>	A person is defined to be of Indigenous origin if he or she identifies himself or herself as of Aboriginal and/or Torres Strait Islander origin.
<b>Industry (of employment)</b>	This variable describes the industries in which employed people (aged 15 years and over) work, and is coded to the <i>Australian and New Zealand Standard Industrial Classification (ANZSIC), 1993</i> (cat. no. 1292.0).
<b>Internet</b>	Internet includes: Internet connections in private and business applications; Internet connection through a computer or set top box, games machine, mobile phone, or other means; and Internet used at other locations including libraries, Internet cafes, shops, educational institutions, or at a neighbour or friends place of residence.
<b>Labour force</b>	The labour force comprises employed and unemployed people aged 15 years and over.
<b>Locality</b>	See definition under Geographic areas.
<b>Lone person household</b>	A person who usually lives alone in a private dwelling.
<b>Occupation (of main job)</b>	This variable describes the main job held by employed people (aged 15 years and over) during the week prior to Census Night, and is coded using the <i>ASCO—Australian Standard Classification of Occupations, Second Edition</i> (cat. no. 1220.0).
<b>Overseas-born</b>	Overseas-born people are those who state that they were born in a country other than Australia, those born at sea, and those whose responses are classed as 'Inadequately described' or 'Not elsewhere classified'.
<b>Personal Computer (PC)</b>	PCs include: computers used at home for private and business purposes, portable computers, personal organisers, computers brought home from the workplace, and dedicated word processors. Game machines are not included.
<b>RNTD01</b>	This is a derived variable which identifies the weekly rent paid for a dwelling in ranges. In standard census products, ranges are used rather than individual dollar amounts. Individual dollar amounts are available. More detail about this variable is available in the <i>2001 Census Dictionary</i> (cat. no. 2901.0).
<b>Section of State</b>	See definition under Geographic areas.
<b>Student</b>	A student is an individual who attends a secondary or tertiary educational institution on a full-time/part-time basis.

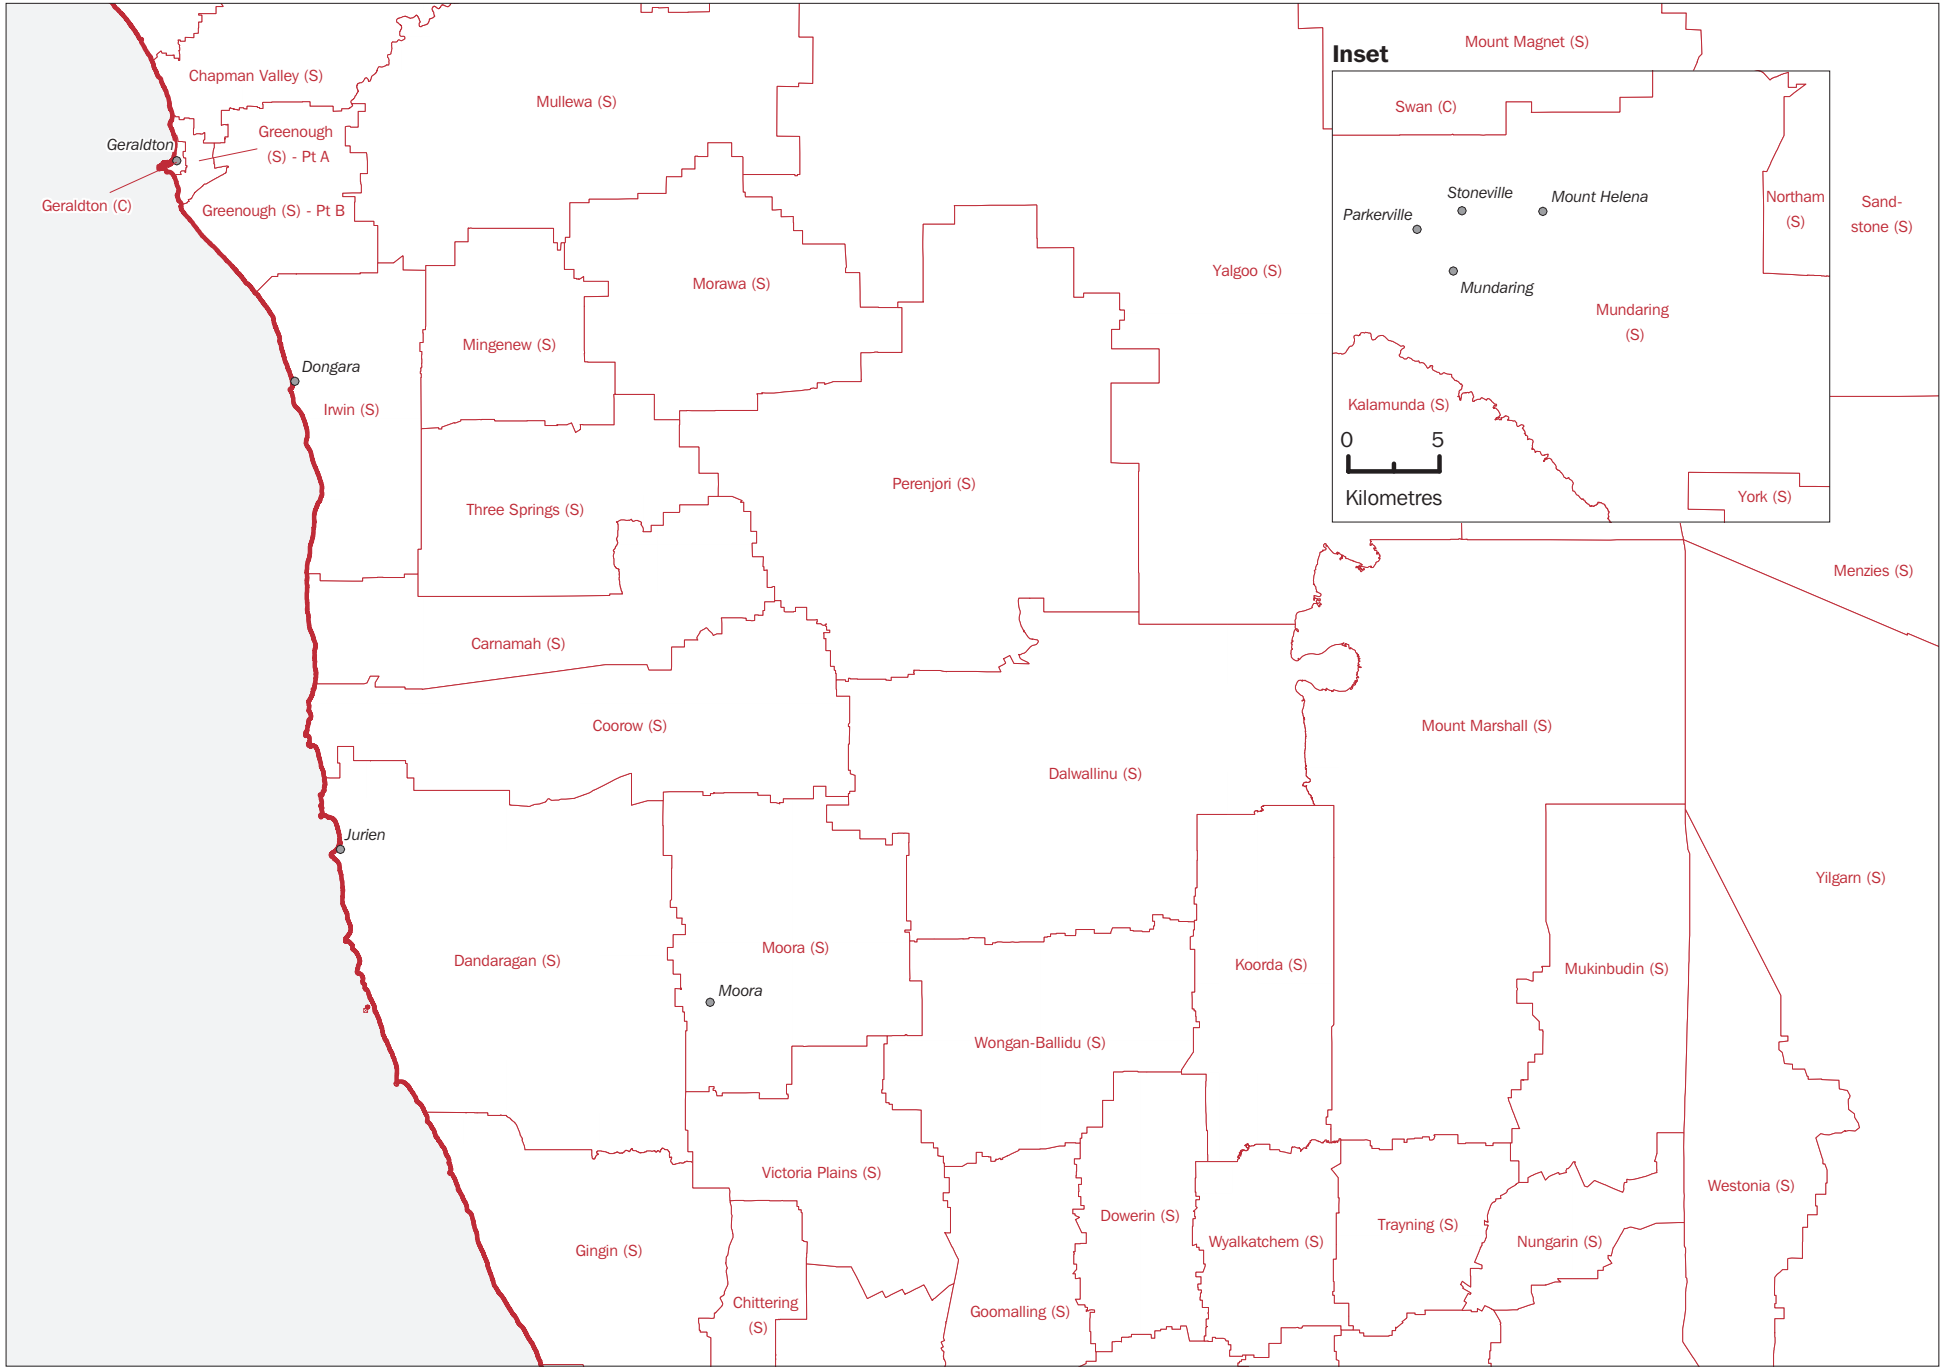

## GLOSSARY *continued*

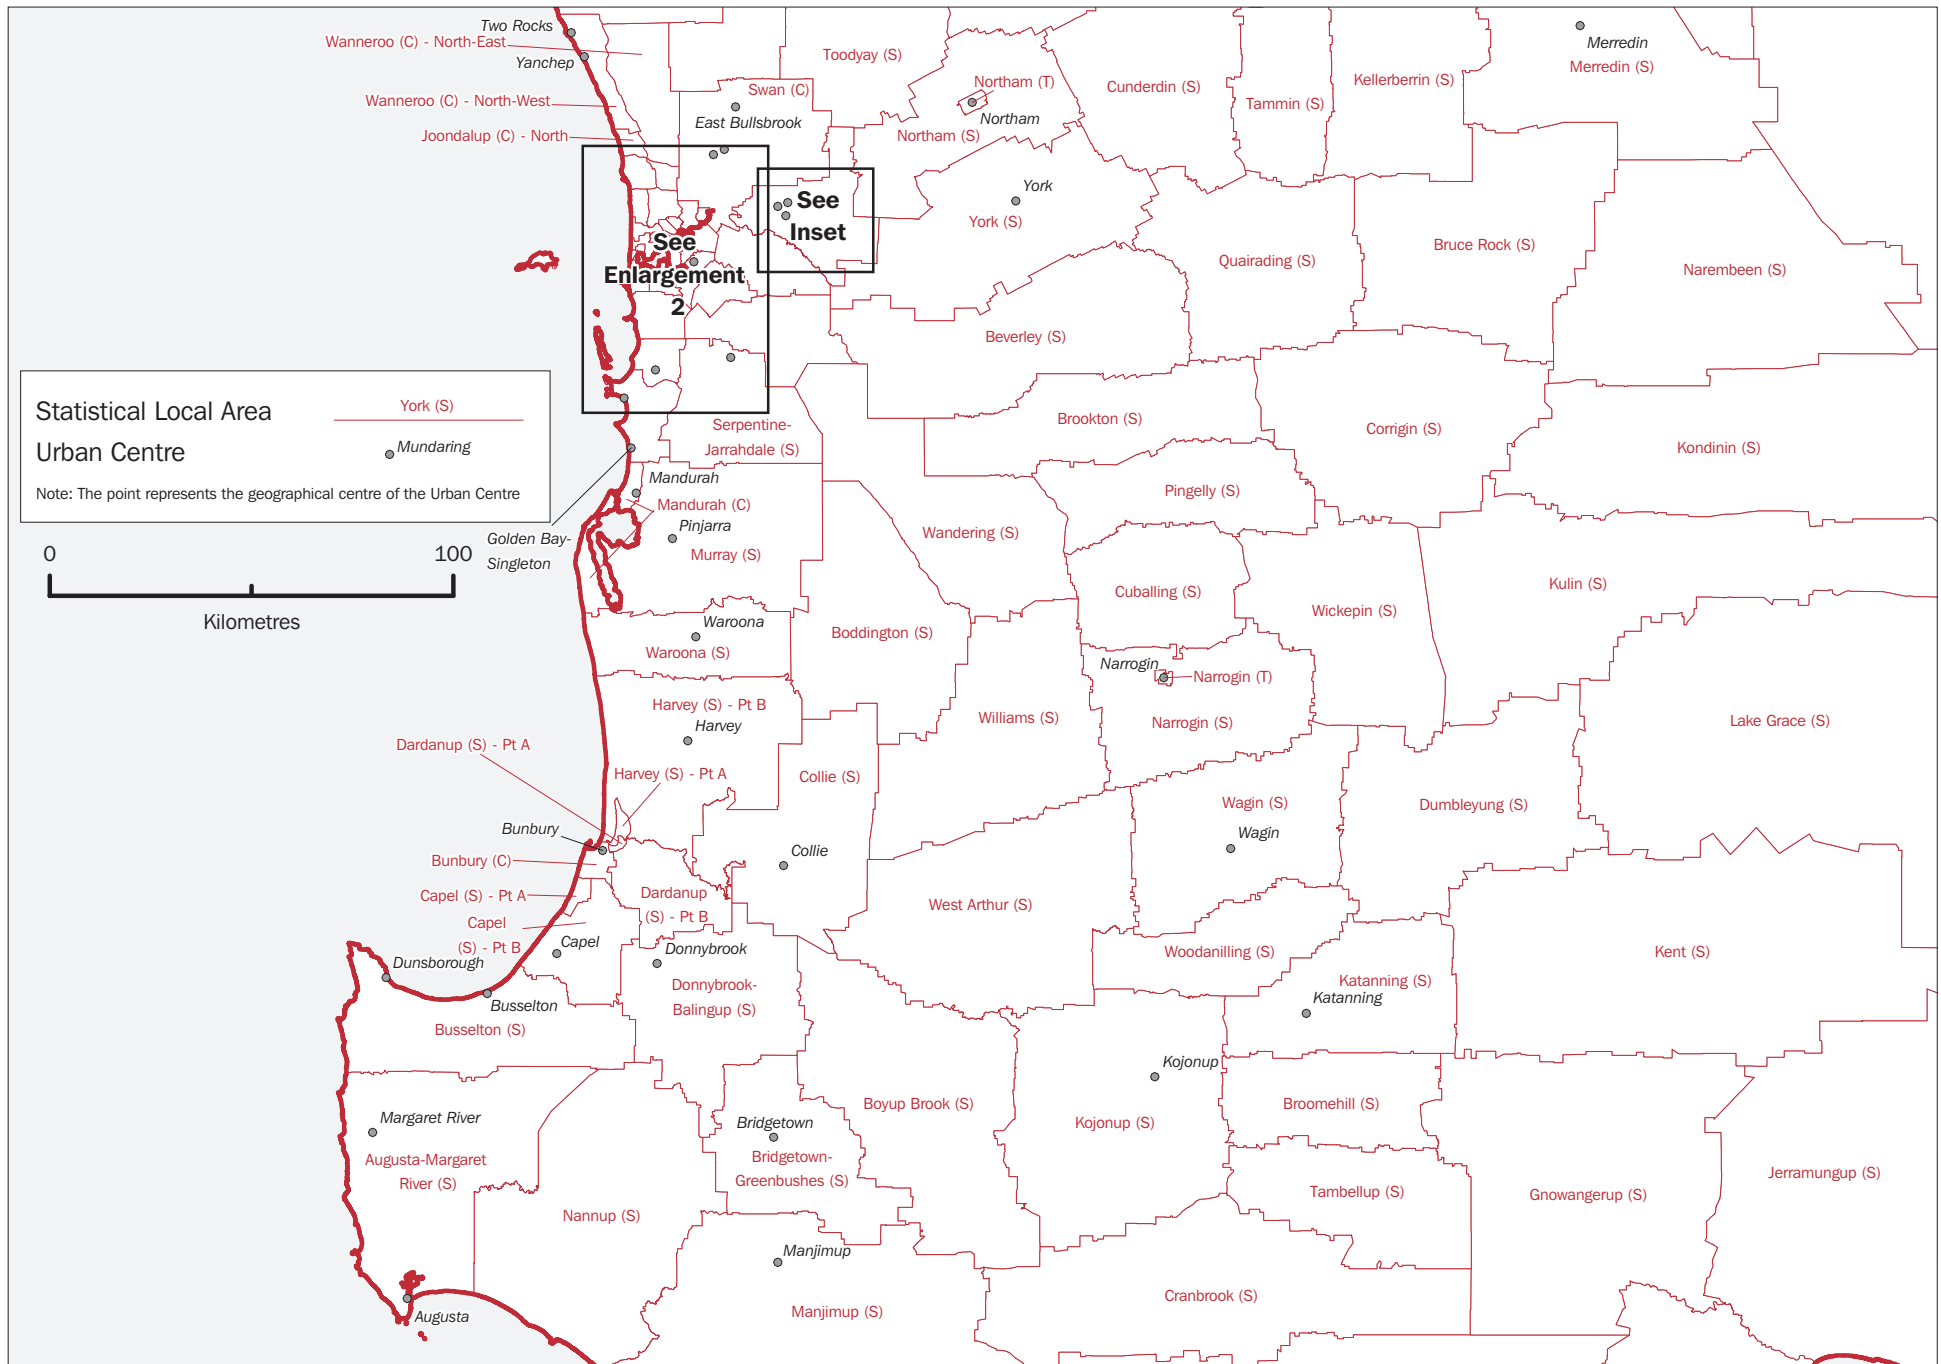

<b>Unemployed</b>	Unemployed people are those who, during the week prior to Census Night, did not have a job but were actively looking for work (either full-time or part-time) and were available to start work.
<b>Unemployment rate</b>	The unemployment rate is the number of unemployed persons expressed as a percentage of the labour force.
<b>Urban Centre</b>	See definition under Geographic areas.

## FOR MORE INFORMATION...

<i>INTERNET</i>	<b>www.abs.gov.au</b> the ABS web site is the best place to start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a statistical profile.
<i>LIBRARY</i>	A range of ABS publications is available from public and tertiary libraries Australia-wide. Contact your nearest library to determine whether it has the ABS statistics you require, or visit our web site for a list of libraries.
<i>CPI INFOLINE</i>	For current and historical Consumer Price Index data, call 1902 981 074 (call cost 77c per minute).
<i>DIAL-A-STATISTIC</i>	For the latest figures for National Accounts, Balance of Payments, Labour Force, Average Weekly Earnings, Estimated Resident Population and the Consumer Price Index call 1900 986 400 (call cost 77c per minute).
